Happy Ending

MASTERING CHAIN

> The last touch on your mix, with ranges that already make sense.

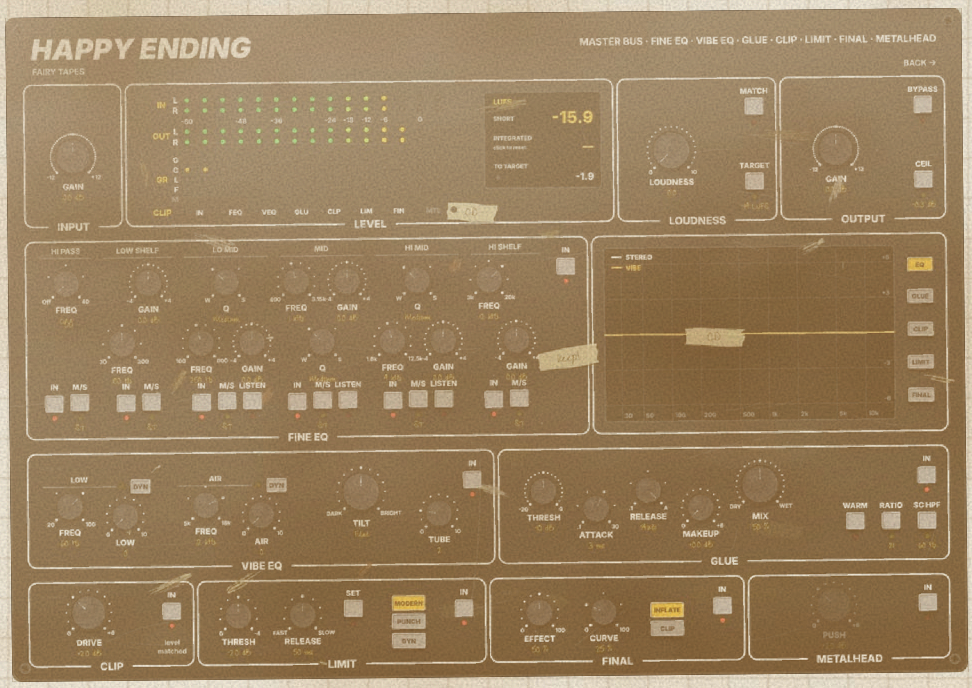

PLATE 1 · THE FULL PANEL, NO HIDDEN MENUS

A mastering chain for the master bus, with ranges that already suit a finished song.

Use it for the final bounce, or a demo that needs to sound like a record.

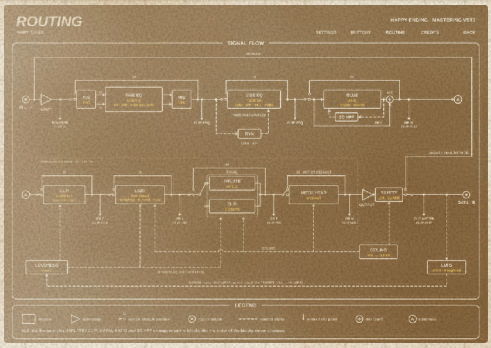

Soon.

99% RECORDED · NOT RELEASED YET

SIGNAL FLOW

EQ, glue, colour, a gentle clip and a safe limiter, in the order a mastering engineer would use them.

THE KNOBS

Bypass	Switches to the input delayed by the…
Input Gain	Level into the chain.
Output Gain	Level after the chain, before the safet…
Ceiling	Highest output sample whenever…
Loudness	Pushes CLIP, then LIMIT, then FINAL…
Target	Loudness that MATCH aims for.
